FlameStop offer a wide range of vinyl cut stickers for the majority of your installation requirements. Our stickers are cut from quality vinyl material with permanent adhesive for a fast and perfect install.

About our Vinyl Cut...

What are vinyl cut stickers?

Vinyl cut stickers are cut to shape, this eliminates the need for printing inks and background material. Vinyl cut stickers are also called Computer Cut Decals and Die-Cut Decals.

What are your vinyl cut stickers made from?

Our stickers are made from high quality 3-5 year, self adhesive vinyl in a variety of colours.

How long do they remain sticky?

The permanent clear adhesive has a life of 5+ years.

How long can I keep them for?

Stickers should be stored at room temperature and applied within 6 months of purchase. (Note: do not store inside vehicles which can get hot and adversely affect the adhesive properties).

How are vinyl cut graphics produced?

Your chosen vinyl colour is loaded into our computer cutting machine, the letter/graphic shapes are physically cut out of the vinyl with a sharp blade. The excess vinyl is removed and the letters/graphics are mounted on to application tape ready for install.

Will they fade in the sun?

No, generally a computer cut sticker will last 3-5 years outdoors and minimum 8+ years indoors.

Are your stickers durable?

Installed on a correctly prepared surface, adhesion will be excellent and should last many years without peeling.

What sizes can I have?

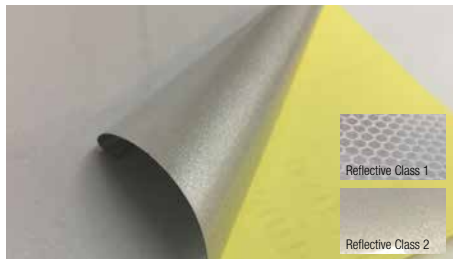

Any size small or large, there are no limits.

How do I install vinyl cut stickers?

Wash the wall or surface with soap and water, then remove any residue by wiping area with Isopropyl or Alcohol. Lift off application tape by peeling one of the corners. The tape should now have the cut letters/graphic attached to it. Using a squeegee firmly apply to the surface pushing out any bubbles from the centre. Tip: Make the application easier by spraying the surface with water prior to install.

Can you make reflective stickers?

Yes, we can produce computer cut reflective safety Class 1 & 2 stickers.

Are vinyl cut stickers waterproof?

Yes, our stickers can be exposed to water and wiped clean.

Are vinyl cut stickers reusable?

No, removing vinyl cut stickers will cause them to stretch and tear.

Can I laminate vinyl cut?

No, we do not generally laminate vinyl cut stickers.

Can I add my logo or contact info?

Generally no, but it can be done.

Are your stickers supplied on a roll?

No, our computer cut graphics are supplied flat or rolled into a tube for transport.

GENERAL SIGNAGE FAQ.

What type of signs do you make?

We can make most types of signs on a wide variety of materials.

Can you make a customised sign?

Yes, just contact us with your specific requirements.

Do you provide proofs?

Yes, once you place an order we can provide a proof.

How much does it cost?

Each sign is different, the cost depends on materials used, print process and how many you want? We can quickly quote you.

Do you install?

No sorry.

Do your signs conform to standards?

Yes, specifications and colours for our signs and stickers are produced in accordance to AS1319:1994

Can you print from my own artwork.

Yes we can print from your files (see 'Supplying Artwork Guide'). Note: conformity and compliance becomes client responsibility.

I don't have any artwork.

Simple artwork is free of charge, more complex artwork may incur an artwork fee, you will be notified in advance.

How quick can you produce my sign?

Most signs and stickers in our catalogue we keep in stock nationally. If your sticker is uncommon or customised allow 3-5 working days.

How long do your signs last?

This highly depends on where the sign is installed. Indoors, out of direct sunlight minimum 5+ years. Outside in direct sunlight 1-3 years before the sign will start to fade. We can also laminate signs to protect and extend their life by an additional 1-2 years.

Can you make signs same day?

Yes, we offer a same day turnaround and also a next day service, additional costs apply, speak to your local representative.

Does your cost include GST?

No, please add 10% GST onto all prices.

Does your cost include freight?

No, but we can provide a freight quote or you can collect direct.
